

European Information Exchange Model

European Police Congress
3 February 2010

EDOC#451491-v1

Europol perspective

- Understanding of the external situation
- Identification of gaps and redundancies
- Connecting Europol where relevant
- Inspiration for improvement

4 Maps

Legislation:

- Europol mandate ↔ crimes listed in the EAW
- Member States ↔ Non-EU Schengen Partners

Channels:

- Which channels are used for what purpose?
- Theory ↔ practice
- Standards for data management

4 Maps (continued)

Information flows:

- Quantity of information exchange
- Coordination mechanisms
- Efficiency/synergies

Technologies:

- Interoperability with national systems
- re-use of existing solutions

Relation to other initiatives

- Standardisation – Follow-up to UMF
- Design of a target information management architecture
- Assessment of the added value of existing solutions and new proposal

Thank you
